***Areas of Improvement to Affect Change***

*We as a school board want to improve our understanding of cultural diversity to better serve our students. We can achieve this by studying our current strategic plan. We understand that poverty is a challenge but it is much more than just numbers on a page, it is about relationships with students, parents and community. We need to provide the individuals we serve with equal access and opportunities so as to not leave anyone out of our system. When we are able to isolate biases in ourselves we will be more prepared to help create a culture filled with creativity to include the arts and other humanity studies incorporated into our classes or programs. We need to create an environment that promotes a welcoming climate and builds relationships and this should start with the design of our facilities.*

***"...it shall be my constant endeavor to devote time, thought and study to the duties and responsibilities of a school board member so that I may render effective and credible service..."***
